

Data Sheet Accessory Code: **CWB75-I**

Accessory Description: **Wall mounting bracket 725mm L x 100mm W**

General Images of the Product Range Features

Wall mounting bracket 725mm L x 100mm W

Product Code

CWB75-1

The "Choice" range of products and accessories allows the user to support a tablet computer, laptop, monitor and touch screen monitor, (the device) at the correct ergonomic height for sitting or standing. By allowing the device to be supported at different angles "Choice" also facilitates direct data input and or viewing preferences.

This cost effective solution offers simple adjustment that automatically locks in place at the desired height, or viewing angle, if the device has a protective cover this can remain in place.

Dimensions

Colours
